

ECO ELITE SPECIALTY

The Eco Elite Specialty Filters are specifically designed to address unique water challenges that are present in different parts of the country. From Forever Chemicals (PFAS, PFOA) to Lead to Chloramines, there's an Eco Elite Specialty solution that ensures cleaner, safer water for those regions with such contamination challenges. Specialty cartridges available with ScaleArmor™ Media to prevent scale buildup in plumbing, fixtures, and water-using appliances.

Features:

- **Optional ScaleArmor™ Media:** Prevents lime scale buildup, effective in hard water conditions (up to 15 grains).
- **Durable Construction:** DP BIG Mono 4.5" x 20" Blue Sump for long-lasting performance.
- **Efficient Filtration:** 5-micron sediment cartridge removes fine particles and debris.
- **Convenient Maintenance:** Includes a drain kit for easy filter changes.

Ideal for homeowners seeking to solve unique water challenges as part of whole-house filtration, the Eco Elite Specialty cartridges deliver protection and peace of mind.

KEY FEATURES

- **1" NPT Inlet and Outlet:** Easily integrates into most plumbing setups
- **Flow Rate:** Up to 20 Gallons Per Minute
- **Pressure & Temperature:** 120 PSI of pressure and up to 113° of temperature
- **Longevity:** Filters last up to 12 months under normal municipal water conditions

NSF/ANSI Test and Approved
IAPMO Certification

*Constructed of reinforced polypropylene. Includes metal "L" mounting bracket, drain, and wrench for secure fitting.
