Premium Protection For Drinking Water

High Quality Coconut Shell Catalytic Carbon Filter
Reduces Organics, Chlorine, Chloramines and
Particulates in Drinking Water

Coconut Shell Catalytic Carbon is the best media available to reduce organics, particulates and other contaminants such as chlorine and chloramines that make drinking water smell and taste bad.

**Filters Down To (0.2 Microns) And
Reduces Down To 99.95% of Contaminants**

The proprietary catalytic carbon block filter reduces microbial cyst like Cryptosporidium, Toxoplasma, Giardia and Entamoeba that are resistant to public water disinfection and could cause issues with your health.

**Certified to Meet Structural
And Performance Standards**

Requires water dispenser faucet
(not included)
