

DEFENDER

10WF - 4014A

Pre-Filter

SPECIFICATIONS

Capacity	100,000 Gallons
Flow Rate	15.0 GPM
Water Rating	10.0 MGDA
Operating Pressure	20-80 PSI
Operating Temperature	50°-120° F

Scan for
Defender Pre-Filter

For best results, use only the Defender Pre-Filter only for pre-filtering incoming water. It is not a water purifier. It is designed to remove sediment and other debris from the water. It is not designed to remove dissolved solids, which may require other water treatment.

Do not use for water that is not intended for drinking. Do not use for water that is not intended for drinking. Do not use for water that is not intended for drinking. Do not use for water that is not intended for drinking.
